**Dear Atty. Loreto:**

Thank you for introducing Resolution No. 2022-283 to express your well-wishes on my appointment as central bank governor. It is an honor to accept the call to serve, especially at this vital juncture in history.

While we are facing several challenges that will inevitably affect our post-pandemic recovery, I hope that I can count on your support as we work to steer the economy back to growth. Even during my stint as Socio-Economic Planning Secretary, I have always believed that strong coordination with local governments is an important component of our national development agenda.

Again, thank you for your support.

Very truly yours,

  
**FELIPE M. MEDALLA**  
Governor
